63rd Annual ICI Technical Conference and Expo

Blayson will be attending the upcoming 63rd ICI Technical Conference and Expo at the Greater Columbus Convention Center and Hyatt Regency Columbus Ohio 16 to 19 October 2016. Blayson shall be exhibiting together with Eagle Engineered Solutions Inc at booth number 207.

We look forward to welcoming all visitors to our booth for any discussions regarding the investment casting industry and Blayson and Eagle products and solutions.

Blayson Appoint Bharat Dyes Agency for representation in India

Blayson are pleased to announce the appointment of Bharat Dyes Agency based in Rajkot India as their sales and distribution representative. Bharat Dyes have a wide experience of sales and distribution of many products to the investment casting industry in India.

With Bharat Dyes wide knowledge of the Indian market combined with Blayson extensive wax manufacturing and technology experience, the partnership between Bharat and Blayson offers the Indian investment casting market a high quality alternative service of wax supply and technical support.

14th WCIC Paris

The 14th World Conference on Investment Casting was held 17 to 20 April 2016 at Le Palais des Congres de Paris.

In excess of 400 Delegates attended, representing all major sectors and regions of the global investment casting industry.

The theme of the Conference was "Castings that keep the World moving forwards". In recognition of the truly Global attendance, Blayson representatives from across Europe, North America, Japan, China and Taiwan were all present.

It was a great opportunity for all to meet together and discuss common business interests at a Dinner, hosted by Ron Williams.

Blayson made two Presentations at the Conference. A World Market Review presented by Ron Williams

and New Wax Developments for Turbo Wheel Production presented by Phil Hancock. Both papers are available at

investmentcastingwax.com

As part of the world market review, individual contributions were made by Joseph Fritz for North America, Zhigang Lu for China and Yukio Nasu for Asia, including Japan, Korea, Taiwan and India.

STOPSIL

Blayson and EP Laboratories have developed a new cleaning product to assist with the removal of silicone oils from foundry equipment, dies and floors.

Use of STOPSIL can greatly contribute to improve Health and Safety and environmental issues within the industry. Please contact Blayson for a sample of this new product.
